Resident of Namugongo
KIRA.

Tumusiime Masiko Miracle

We act for and on behalf of Ms Charlotte Kwikiriza Rugyengye and write to you as follows.

In the recent past, we had maintained correspondence with your lawyers, Ms Abbas Advocates. We are constrained to write to you directly on account that Our Client desires to conclude the issue concerning the above referenced child.

We have made a proposal that the child's DNA sample be extracted for the sole purpose of establishing the paternity of the child. The late Rugyengye's DNA is available with the pathologist at Mulago. We can provide details of the Doctor's name upon request.

However, we have requested that the samples can be extracted at the Government Analytical Laboratory. Should you prefer a different service provider for the DNA, this will be at your cost.

Should the results turn positive, the child will be recognised as a beneficiary and treated as such.

We anticipate to receive your response directly or through your lawyer of choice.

Yours Sincerely,

Alvarez Advocates
